

'Secret Word' security feature is now live!

This one simple step will make all your electronic earnest money transactions more secure than ever!

Now, when you send an earnest money request to your buyer, you will enter a 'Secret Word' as part of the Buyer Payment Information.

This will provide an additional level of security for you and the buyer(s). Enter any word of your choosing in to this field and share that word with the buyer either verbally or via text message. DO NOT email the Secret Word.
