

What I Love About My Home

Dear Future Home Owners:

When we purchased this lot in 2001 it was a dirt field. We are very proud of all the landscaping we have developed. The mature trees around the property are hard to leave behind. This is a quiet neighborhood and we often found we were the only ones around when most of the neighbors went off to their lake cabins. Starting with the vaulted ceilings in the living room each of these rooms are spacious to host company.

Warm Regards,
